1963-1974 Buick Riviera - Date Coded Spark Plug Wires

For those requiring the best for their show ready car, these reproduction wire sets are unsurpassed. They are manufactured to original GM blueprint specifications. They include the proper boots, terminals, script and correct factory length. All wires are carbon core for radio suppression. They come correctly identified with "Packard Radio TVRS" or "Radio GM" along with the proper date code to match your car.

Date codes will read as such: 3 Q 67. The first number, "3" corresponds to the third quarter of the year. "Q" means quarter. The last number, "67", is the year, 1967. Thus, a cable marked 3 Q 67 was produced in the third quarter of 1967. You should order your spark plug wire sets with dates that are 6 to 12 months prior to the manufacturing date of your car. Note: wires were not dated on vehicles prior to January 1961. Reproduction Spark Plug Wire Sets - 8 Cylinder

1963-1964 Rear 1/4 Ornaments

After years of R&D these ornaments or “Horseshoes” are finally completed. They are quality made to be better than Buick produced. The fit and finish are beautiful, chrome plated to perfection and ready to install. Clips are included in the kit. During production in late 1963 or early 1964 Buick changed the pin location of these ornaments. It is believed that the forward end of the ornament was lifting possibly from car wash brushes. The forward pin was located nearer to the end for better support. Our answer was to make pins in both locations. You merely twist the 2 pins not needed with pliers, then dress with a file or dremel tool to level the remaining stud.

Currently we have kits available for 1963, 1964 and 1965 in vinyl, fabric and leather.

All sets are made with TOP quality vinyl, fabric and/or leather with correct grains. All pleats are stitched or "heat sealed" - just like originals. Seat back "inserts" are also made to be identical.

**Upholstery Information**

**Full Sets** - consist of both bucket seats and rear seats. We recommend the full set so all colors match. The "FULL SET" does not include the rear side arm rest panel vinyl. This can be ordered separately.

**Individual Seat Parts** - If you’re satisfied with our color match after you see our samples, you may order the piece you need.

**Buttons** - You will have to use your original buttons. Extra vinyl is supplied for covering them. An acceptable job can be done using a hair drier for heat and a good "super glue”.

**Vinyl** - Only TOP QUALITY - exact grain, many exact original colors. NO RETURNS due to colors! We suggest you request samples.

**Leather** - Leather and vinyl were offered in 1963. We also manufacturer sets for 1964 and 1965 - but no returns. We have matched the original colors and suggest you request samples.

**Fabric** - Fabric and vinyl were offered from 1963 through 1965. Most colors are a close match. We suggest you request samples.

**Free Color Samples** - Call or write stating year, model and color(s) you would like. Samples are sent FREE. Please note: vinyls many not be exact. Some vinyls used with fabrics are not exact matches so suggest you request both samples and decide.

NO RETURN because you did not see a sample.

At this time we do not manufacture door panels, but we can supply vinyl and carpet for them.

1963-1965 Riviera Upholstery Colors and Codes
All of our kits are made with genuine Walnut Veneer just as BUICK used.

We use no stain or coloring of any type so you are assured of seeing only the natural color of the walnut, again as per original. Each piece is sanded and coated three times with clear satin to duplicate the original texture and finish. Adhesive backing is incorporated to give the ease of "peel and stick" installation.

All panels are steel rule die cut so they fit as the originals. Door panels come without holes (set up for power windows). Holes will have to be made for crank window and remote mirror applications. Rear seat panels are included in door kits. 1965 door panels come with black lines already painted. Please state if you have air conditioning or not. Due to variation in original molds, minor trimming with a hobby knife or razor blade may be required.

SHOP MANUALS: A Shop Manual is ESSENTIAL. This should be your very first purchase after buying your car. These fully illustrated books were originally developed by BUICK for trained BUICK mechanics. They offer in detail, description and analysis as well as maintenance and step by step overhaul procedures. All of our Shop Manuals are Full Size as originals and feature the clearest print and pictures available in a “xerox” type copy. The covers are “in color” and protected by a heavy clear plastic to keep them clean. As an additional feature, each manual is spiral bound in plastic for long lasting use.

CD-ROM: Most shop manuals on CD-ROM contain Buick production facts and figures, shop/service manual, body service manual, parts book, all applicable supplements, sales literature, product information and trivia. This is a complete package.

FISHER BODY MANUALS: These books are “Shop Manuals” for the Body of the car. Topics include Doors, Panels, Weatherstripping, Glass, Glass Channels and all interior.

OWNERS MANUALS: Originally placed in the glove compartment of each car. They contain a wealth of information on awareness, instruction and maintenance of your newly purchased car.

CHASSIS AND BODY PARTS BOOKS: These books were sent to BUICK dealership for their Parts Department Staff to recognize and identify parts. The illustrations within, enable you to find the “group” and “part number” of each part - then identify.

All items listed below are quality copied from genuine Buick originals. They are provided as informative tools for restoration purposes.
